

How to sort your luggage

On the day of shifting, based on the sorting at the time of survey, we will start with the sorting confirmation of " What to shift to Japan(air and sea mail)",

" what you leave in India ", and "what you should bring with your baggage".

After confirmation, multiple staff members perform packing work at the same time . Please select your luggage by the day of shifting so that we can improve work efficiency and avoid mistakes in your destination (seamail , airmail, what you leave in India .)
