Transportation Services

Specialized Trailers for unique customer needs

- **Flat Bed and Drop Deck: Specialized Services** are available help meet customers requirements when moving heavy or large cargo that can not be safely handled in standard trailer. Our Carrier partners provide us with additional resources to help meat our customer urgent needs.
- **Over Sized Project Freight:** Our team of experts can help manage large over sized and heavy weight shipments that require special permitting and escort services to operate. The attention and coordination needed to handle these services is managed by the Nippon transportation team.

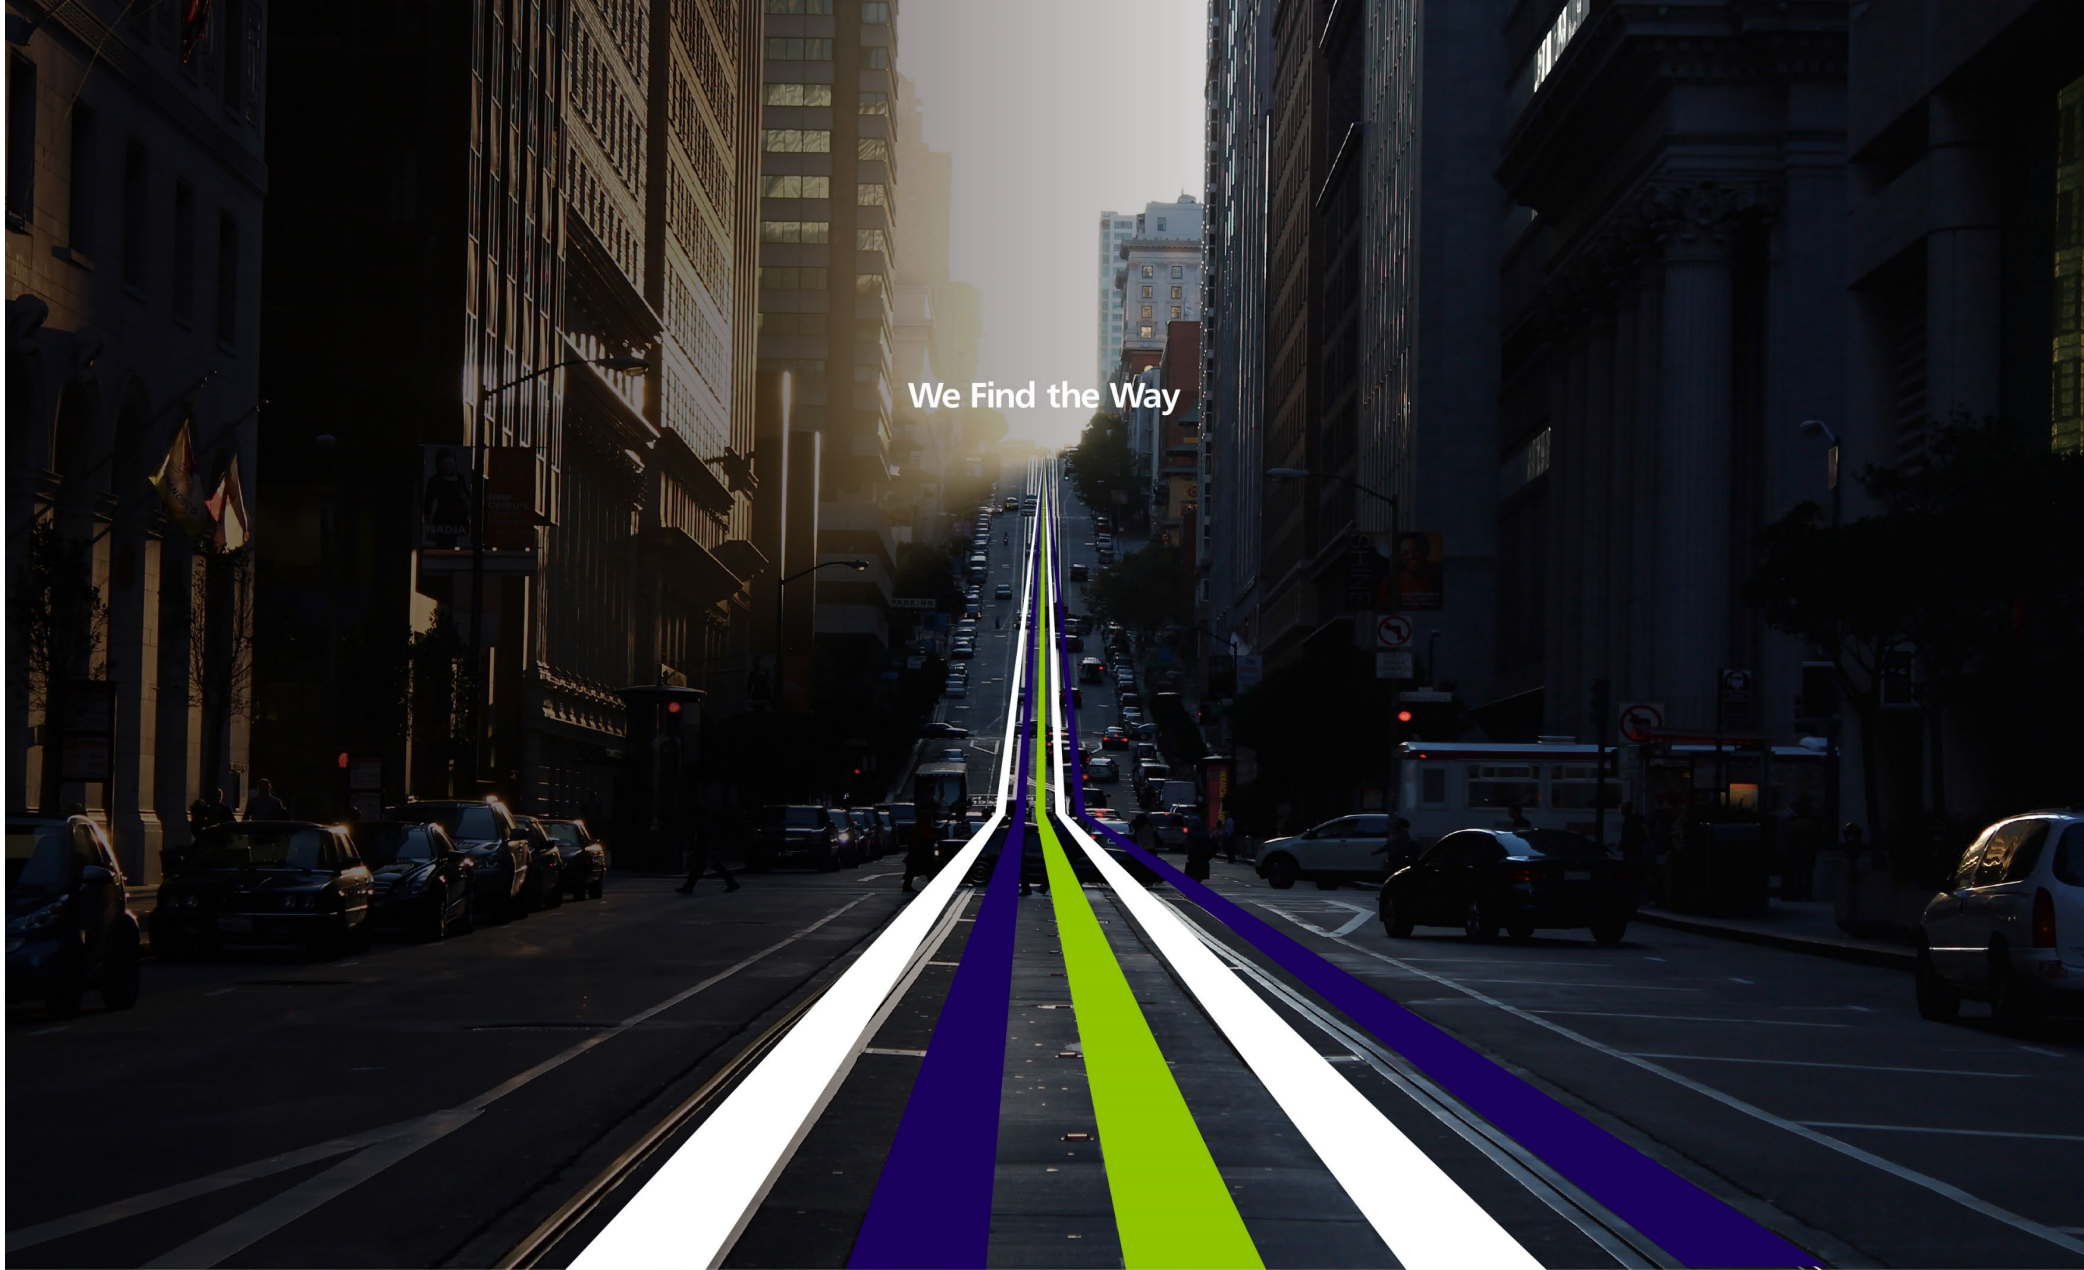

Transportation Services

Customized Services to meet your needs

- **Expedite Services:** Expedited services are available for urgent shipments with cargo vans, straight trucks and 53' trailers with team drivers. Expedited services are continually monitored with customer updates and status reports. Urgency and customer service is the key approach to customer satisfaction.
- **Intermodal Services:** Combines the door-to-door service of trucking with the cost effectiveness of rail transportation. Freight moves in 53' domestic containers via container on flat car (COFC) with satellite tracking and temperature controlled available as options. International containers are also available.
- **Milk Runs:** Milk runs help reduce your transportation costs while improving transit times vs LTL moves. The TCC team can help establish routes and provide the best solution to my the customers needs. The service includes continues monitoring and daily reporting on each routes for improved visibility
